

BOOTHAM PARK HOSPITAL

YORK
YO30 7BY

Executive Summary

- Exceptional and landmark development opportunity
- The site comprises 17.85 acres including the Grade I & Grade II Listed Bootham Park Hospital, former estate cottages, Grade II Listed Gate Lodge, additional estate buildings and open parkland
- Located off Bootham, York, close to the historic core of York
- Offers are sought on an unconditional basis for the whole of the property
- Suitable for a variety of uses such as care, residential, hotel or leisure, subject to the necessary consents
- On behalf of NHS Property Services

One of York's finest Georgian buildings offered to the market for the first time in 240 years. Occupying a site of approximately 17.85 acres, the sale of Bootham Park Hospital presents a unique opportunity to redevelop an historic site within a prime residential location. The site would lend itself to a range of development scenarios including care, residential, hotel or leisure uses, subject to the necessary consents.

ORIGINAL HOSPITAL FACADE AND PARKLAND. GRADE I LISTED, 1772 - 1777.

BOOTHAM PARK HOSPITAL

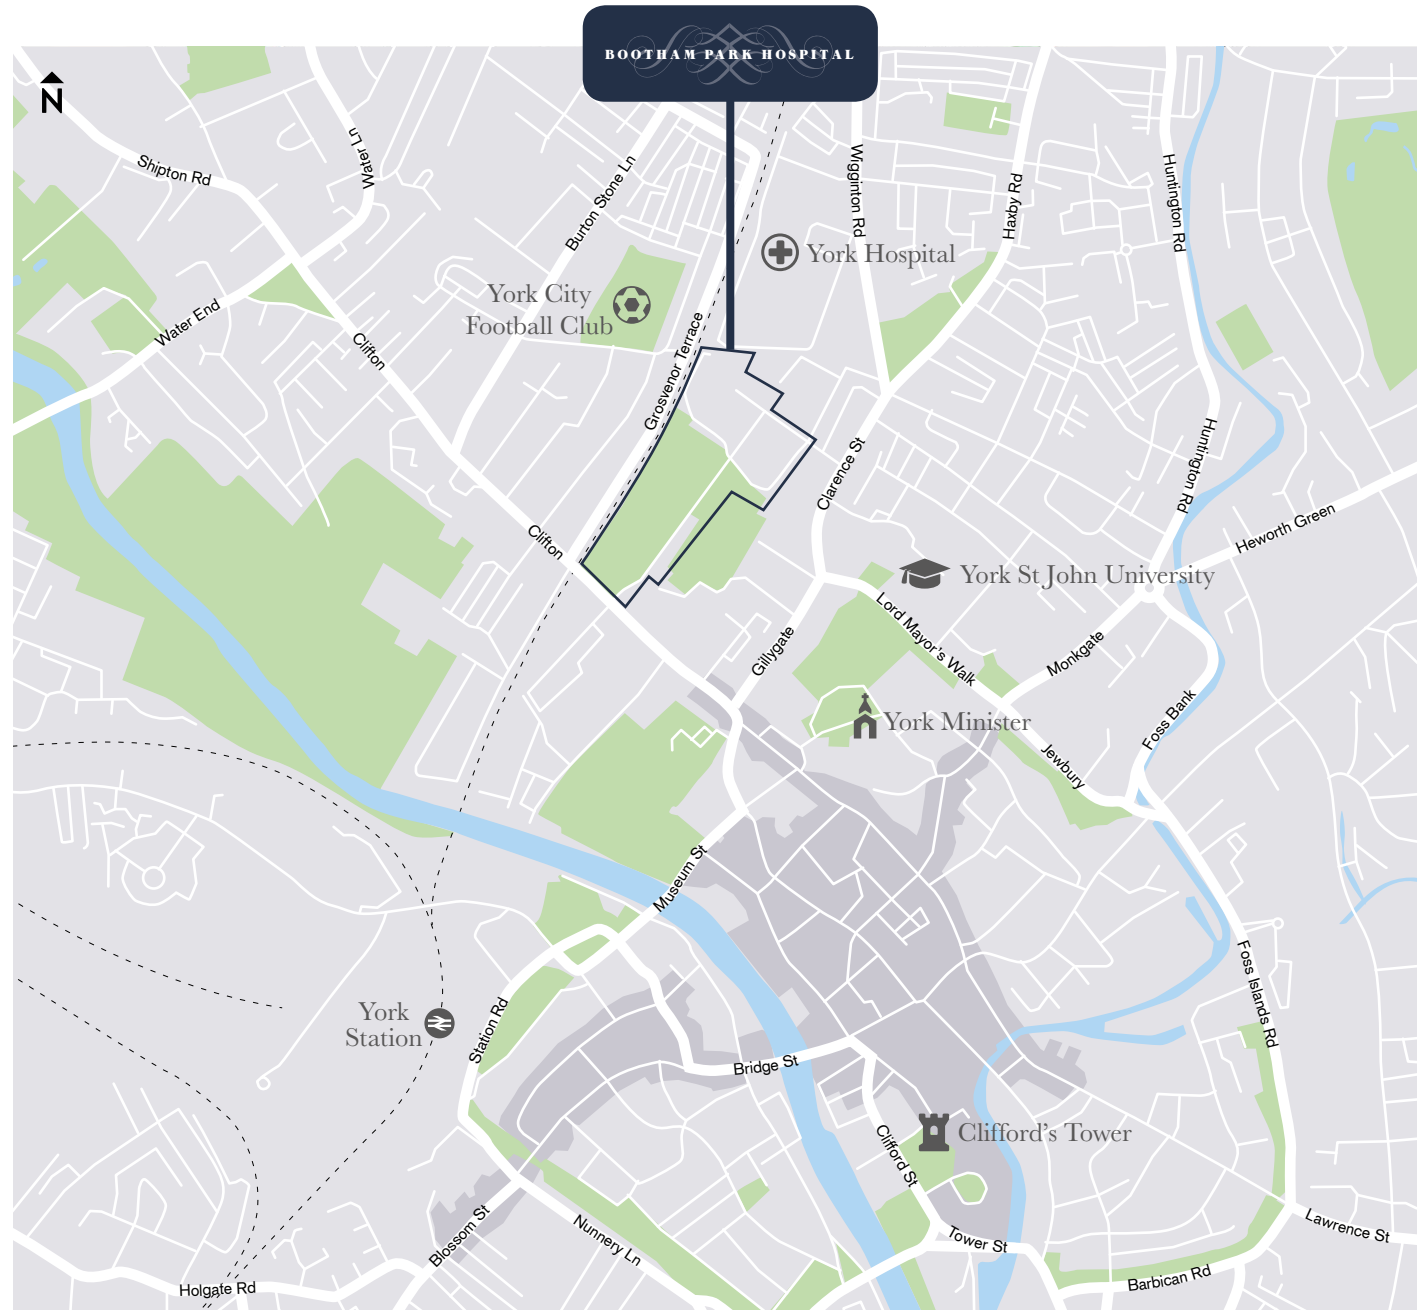

Boundary line for indicative purposes only.

Site Location

Bootham Park Hospital is located on the A19, known as Bootham, to the north west of Bootham Bar and the historic core of York. The site is adjacent to The York Hospital to the north and Bootham School to the east. York Railway Station is half a mile to the south west and the Scarborough railway line runs along the north west boundary of the site. The site is within the vicinity of the historic St Peter's School, Kings Manor and the Yorkshire Museum and gardens. Views towards York Minster can be clearly seen from the grounds of the site and the property is approximately 0.25 miles from the heart of York city centre.

Vehicular access to Bootham Park Hospital is from Bootham to the south and Clarence Street to the north east. An additional pedestrian access point is via by a footbridge that runs from Grosvenor Terrace over the Scarborough railway line.

The property benefits from proximity to the full range of York City Centre's services and amenities, providing excellent rail, pedestrian, cycle and road access. York offers a good range of retail and leisure facilities and is a popular tourist destination. The A1036 and A19 leads to the A64 bypass on the south side of York which in turn gives good access to the A1 at Bramham. York railway station is situated on the East Coast main line with journey times of around 2 hours to London. The train station is popular with commuters, residents and tourists alike. There is also good access to local schools and out of town shopping centres around York such as Monks Cross and the York Designer Outlet, just to the south of the A19/A64 junction.

Not to scale - for indicative purposes only.

Heritage

Dating from 1777, Bootham Park Hospital was only the fifth public asylum to be founded in England. The building was originally known as York Lunatic Asylum and is a notable example of York's renowned local philanthropic character with the money for its construction being raised through public subscription.

The Board Room contains the subscription lists, which record the names of benefactors, including landed country gentry and illustrious city notables, but also ordinary citizens of York. The aspiration was to create a lunatic asylum to prevent the mentally ill from being placed in unsuitable institutions like prisons.

The renowned and celebrated architect of the day, John Carr, was appointed on the ambitious project. The design is in the manner of a grand country house, reflecting John Carr's extensive experience in designing large Palladian country houses, including Harewood House, Tabley Hall and Basildon Park. With its applied Tuscan columns, pediment and fashionable Venetian windows, it was reportedly covered in the press at the time as 'an elegant and expensive affair'.

Services and usage of the site evolved with advances in mental health care through the 19th and 20th centuries with a wide range of notable additions. The name of York Lunatic Asylum was changed to Bootham Park Hospital in 1904. The long north-east range was built for female patients in 1817 to designs by the York-based architects Charles Watson and James Pigott Pritchett. In 1886 the buildings were extensively refurbished internally with the addition of a link block by Fisher and Hepper of York. In 1908 a further extension was added for affluent female patients by Alfred Creer of York. Much of the site's railings, gates and gateways and are Grade II Listed, forming a key part of the heritage and striking appearance of the site.

Heritage specialists Purcell have undertaken a comprehensive historic buildings appraisal, which is available to interested parties on our dedicated dataroom. There is also further information available, including the full documentation of the various Listings, on Historic England's website:

ORIGINAL HOSPITAL BUILDING. GRADE I LISTED. OPENED FOR PATIENTS IN 1777.

Description

Bootham Park Hospital occupies a total site area of approximately 17.85 acres, with extensive open grounds extending to around 10 acres to the south, between the hospital and Bootham. This open space can be identified in the York Central Historic Core Conservation Area appraisal as being a significant feature of the Bootham Park Hospital character area. Within the site to the east are additional green spaces surrounding the Chapel and adjacent to the site Bootham School has a large playing field.

The principal hospital buildings on site are Grade I & Grade II Listed and include a complex group of structures of various states and styles. The three storey frontage of the original 1777 structure is by the celebrated architect John Carr and is Grade I Listed. To the rear of this building a T plan range dates to the late 18th and 19th centuries with various modern additions. The principal floor area of the main hospital comprises a gross floor area of approximately 93,496 sq ft (8,686 sq m).

Within the grounds there are various buildings of note including the former estate cottages which comprise a cluster of properties along The Avenue in the region of 7,395 sq ft GIA (687 sq m) and forms the boundary with Bootham School. To the entrance of the site, on Bootham, there is a Grade II listed gate lodge that dates from 1857 that was previously used as administration space, which comprises approximately 1,496 sq ft GIA (139 sq m). There is a Grade II listed Chapel that was constructed in 1865 that was converted in 1989 to offices and is still in this use. The NHS shall retain a long leasehold on the chapel, with exact agreements to be finalised with the successful party.

Floor Areas

Building	Listing	Gross Sq Ft	Gross Sq M
Bootham Park Hospital	Grade I & Grade II	93,496	8,686
Former Estate Cottages	N/A	7,395	687
Gate Lodge	Grade II	1,496	139
Total		102,387	9,512

Planning

In terms of planning classification, the present use class of Bootham Park Hospital falls within classification C2 – Residential Institutions. Other uses within this classification include residential care homes, hospitals, nursing homes, boarding schools, residential colleges and training centres. Given the accommodation and site area included, the opportunity would lend itself for the development into a variety of uses such as care, residential, hotel or leisure use, subject to the necessary consents.

Conservation area

Bootham Park Hospital lies within Bootham Park Character Area, a dedicated Character Area within the York Central Historic Core Conservation Area. Conservation forms a central strategy of The City of York Council in maintaining York as a leading city in the UK. In particular, conservation draws significant numbers of visitors to the city and the quality of York's streets and spaces is recognised as vitally important in continuing to attract people and businesses and encouraging them to stay. In that regard, the redevelopment of Bootham Park Hospital presents an exciting and unique opportunity to create a landmark site within the central historic core.

The City of York Council's advice with regards to Tree Preservation Orders (TPO's) is that in a Conservation Area, all trees should be regarded as protected and any proposed alterations would necessitate specific further discussions with the council. Further information is available at:
