During our 2 year pilot

service delivery

We're open...

Since launching NHS Open Space in May 2019:

98% of bookings being paid for compared to 11% during the pilot (more funds coming back to the NHS)

We have expanded our community to:

OPEN SPACE

DELIVERED BY NHSPS

And improved space utilisation:

30.89% continuous booking rate

despite seeing a fall in usual service provision during COVID-19, with some rooms being temporarily repurposed for pandemic response.

All figures correct as of April 2021
