

**Freedom of information request –**

Thank you for your information request which we received on **01<sup>st</sup> July 2025**. In line with the Freedom of Information Act 2000 (FOIA), NHS Property Services (NHSPS) are pleased to respond as below.

**Your request:**

For the year to 31-Mar-25 for all sites within your control, we please require the below to be disclosed:

Organisation Name:

Your grid Electricity kwh's consumed & the £-value spent excl-vat?

The natural Gas kwh's consumed & the £-value spent excl-vat?

Please do also indicate if the electricity is classed as or % from renewable sources or traditional Brown?

Notes: Given the cost increases to the residents of each local authority, there is a huge public interest in accountability of ALL public sector energy usage & energy costs across all Local authorities, all Government departments and all publicly funded or linked organisations which fall within freedom of disclosure requests. For the avoidance of doubt, disclosure of energy kwh usages falls firmly within the EIR 2004 regulations, and the cost disclosure fall within your normal cost spend disclosure as stated on your public facing website disclosures and so there is nothing which could be considered as a valid ROI exemption nor could claim to be commercially sensitive etc.

Considering the unfettered full disclosure of all Government departments and over 400 local authorities etc within our last £4.3 billion cost report, then as FOI obligates local authorities etc to adhere to full disclosure, any refusal will be passed onto their local media.

In case of interest, our last report was extensively covered in the media here: -
